Money Market Conditions Are Exciting Unensiness-Effect of Gold Exports-Local Trade Situation.

At New York, yesterday, money on call was steady at 14@1% per cent.; last loan,

Prime mercantile paper, 4@5 per cent. Sterling exchange was steady, with actual business in bankers' bills at \$4.871/2 for demand and \$4.84 for sixty days; posted rates, 34.85@4.851/2 and \$4.881/2@4.89; commercial bills, \$4.8314@4.8314.

Silver certificates were 611/20621/20; bar silver, 61c: Mexican dollars, 48%c. Silver bars at London sold at 28 1-16d an ounce.

Early strength in the stock market yesterday, inspired by the favorable London attitude and the better complexion to the Chinese situation, was dissipated later on by realizations by the room traders and discussion of the monetary future. A rise stiffer rate would generally result from the depletion of the bank reserves by gold exports. Operations by the banks thus far this week with the subtreasury show a loss of \$7,756,000. This can hardly be compensated through the interior currency movement and receipts of gold from Pacific ment. The weekly reports of the European governmental institutions were scanned with interest in connection with their reenishment of resources from here. Less than half the recent shipments of upward

of \$17,000,000 was reflected in the statement. The Bank of England's return showed an increase in reserve of \$3,805,000, and bullion increased \$2,156,920. These acquisitions caused more liberality to borrowers, and loans increased \$5,960,000. The bank gained on balance yesterday on bullion transac-tions \$3,410,000. Its official rate of discount was maintained at 4 per cent., but the open market rate fell to 3%. The showing of principal items than last week. Gold holdonly \$350,000, while loans were reduced \$3,221,925 and circulation shrank \$3,000,000. As the rise in prices of stocks early yesterday was maintained with difficulty professional traders who have been instrumental in the week's advance switched over to the short side and let go their holdings. No increase in out-side business was reached despite the apparent stability to the early movement in railroad stocks. This factor influenced short sales by operators who consider the market top-heavy. While there was but little energetic selling in any quarter prices steadily receded and ended at the lowest. The price level on the day, however, wed but few notable changes. wide movements were made in a few of the guotations given below are the selling specialties, notably Sugar, Pacific Mail, prices of the wholesale dealers.) pecialties, notably Sugar, Pacific Mail, Rubber and Consolidated Gas. The latter covered a range of over 2 points, early strength being succeeded by a fall, and a final rally resulting on the announcement that the stock was to be restored to an per cent. annual basis. Reports of a evere cut in prices of structural steel by adependent concerns imparted heaviness to the steel group, which also felt the gen-eral selling of the day. Despite official denials of the rumored deal by the Baltiore & Ohio to absorb the New Jersey Central Railroad the latter stock moved up a point at the outset, but later lost the gain. Transactions in bonds fell off somewhat and the market showed irregularity. Total sales at par value were \$\$30,000. United States government issues were all ¼ per cent. lower in the bid price.

LOCAL GRAIN AND PRODUCE.

A Little More Life to Trade Yesterday, with Few Changes in Values. On the wholesale streets and on Commission row yesterday there seemed to be a little more life to trade than on Monday, Tuesday or Wednesday. On Commission row there was a large supply of peaches and cantaloupes, and the market was weaker. Cabbage is scarce. Irish Poultry, eggs and butter rule steady at the revision in prices of Wednesday. Receipts are noderate. The wholesale grocers had a good day, and the dry goods houses had a little spurt of trade. Prices in the dry goods line are steady at the revision made on Tuesday. Druggists are having a very fair trade. Oils and paints are steadier in tone. Trade is improving with the seed merchants. Other lines are without new

NO STRENGTH TO WHEAT

THE MARKET DULL, TONE WEAK AND TRADING FEATURELESS.

Corn Nervous, Kather Than Strong Closing Higher-Oats Lower-Provisions Weak, Especially Pork.

CHICAGO, Aug. 16.-Wheat was dull and heavy to-day under liquidation, September closing Ic under yesterday. Corn was nervous and closed %c higher. Oats closed a shade lower and provisions 20c down for pork, unchanged for lard and 24/05c lower

With a half filled pit, colorless news and conjectures and a certain amount of draggy liquidation the trade in wheat furnished good antithesis for excitement. The market was decidedly flat and uninteresting. September opened a shade over yesterday at 74%@74%c, principally in sympathy with corn. Liverpool was merely steady for futures and easy for spot. Paris after a holiday was off equal to lc. There was no cash demand to speak of. Outsiders had apparently forgotten that this market existed, and the scalper alone plied his little trade most of the session. Bull traders made an attempt at the start to hold the market, but they met no support. One interest threw half a million into the pit and the market slid off. This bundle being disposed of, wheat in smaller lots came tumbling in, and as a result September, after being checked for a moment on the falling off in Western receipts, finally sagged to 73%@73%c. The close was weak, with September 1c lower, at 73%c. Seaboard clearances were equal in wheat and flour to 360,000 bushels. New York reported twenty-seven loads taken for export. Primary receipts were 826,000 bushels, compared with 528,000 last year. Minneapolis and Duluth reported 242 cars, against 233 last week and 217 a year ago. Local receipts amounted to 362 cars, thirty-six of contract grade.

There was more nervousness than activity about the corn market. Country acceptances were light, and, taken as a whole, the tone was nrm. Kansas was still in the grasp of a hot wave, but the small stocks, the light country acceptances and the possibility of a squeeze delivery day were the chief considerations and provided the nervous feeling. Liverpool was firm. September opened %@%c higher, at 38%@ 39%c, sold to 39%c and later, partly in sympathy with wheat, dropped back to 38%c, at which the market closed—%c over yesterday. Receipts were 108 cars. The cash business was smaller and New York re-ported only thirty-six loads taken for ex-

Oats were quiet but steady, helped by the corn firmness and the buying of an influen-tial trader yesterday. Trade was principally in the way of changing September contracts to October. Receipts were 294 cars. September sold between 221/3c and 211/3c, closing a shade lower at 21% @22c. Provisions were dull and irregular, pork

weak, lard steady and short ribs easy. Lard was in good demand by cash peopl and furnished support to other products but pork was unable to withstand the selling pressure of packers. September pork sold between \$11.571/2 and \$11.30 and closed 20c lower, at \$11.35; September lard between 6.65@6.67%, closing unchanged at \$6.65, an September ribs between \$6.90@6.9214 and \$6.8214, with the close 214@5c down, at \$6.85. Estimated receipts to-morrow-Wheat, 325 cars; corn, 145 cars; oats, 365 cars; hogs,
